

UMBRELLA FABRIC COLOURS

The PMS equivalents of the fabrics used shown in the table below are approximations only and should therefore be used as a guide only. They are based on the colour of the 190T nylon fabric used, however:

- Colours can vary between dye lots – a repeat order may be a shade different to a previous order.
- As a range of fabrics are used, the same colour will look different in different fabric types.

Where colour match of fabric is critical, a sample should be ordered to verify suitability of the colour of the stock that will be used PRIOR to printing.
